Notification of Emergency Date Extension for Additional Lots of Epinephrine Injection, USP 1 mg/10 mL (0.1 mg/mL) LifeShield™ ABBOJECT™ Glass Syringe

Dear Customer,

Pfizer has recently received approval from the U.S. Food and Drug Administration (FDA) to extend the expiration date of an additional 38 lots of **Epinephrine Injection, USP 1 mg/10 mL (0.1 mg/mL) LifeShield™ ABBOJECT™ Glass Syringe (NDC 00409-4921-34)** to mitigate a shortage of medically necessary product. These 38 lots are in addition to the 39 lots of the same product previously approved for emergency date extension by the FDA, which Pfizer announced on December 17, 2021. To date, the FDA has now approved a total of 77 lots for expiration date extension.

The lots listed in [Table 1](#) included at the end of this letter are the 38 lots that were most recently extended, and [Table 2](#) includes the 39 lots Pfizer previously communicated. All the approved lots have been extended by 12 months past their labeled expiration date. The FDA is not requiring or recommending that the lots identified in the table be relabeled with new expiration dates. If replacement product becomes available during the extension period, customers are expected to replace and properly dispose of these affected lots as soon as possible. The FDA's [website](#), which lists extended use dates to assist with drug shortages, has been updated to reflect this information.

If you have any questions, please call our Customer Service Department at 1-844-646-4398.

Thank you,

Adam Van Eperen
Portfolio Director, Opioids and Pre-Filled Syringes
Pfizer Hospital Business Unit U.S.
