### **Direct Ordering Update: Multiple Products**

Dear Customer,

The purpose of this letter is to inform you of upcoming plans to change the ordering process of a select subset of products in Pfizer Hospital's portfolio to better align to market needs and customer ordering trends. Moving forward, these products will be exclusively available through wholesalers and distributors and no longer eligible for direct order from Pfizer. The products impacted by this change were determined following a careful and thorough evaluation of customer ordering patterns, which identified that the majority of sales already flow through the wholesale chain.

Table 1 below lists the products that will no longer be available for direct order from Pfizer Prime effective April 1, 2022. Products listed in Table 2, will change ordering process to wholesaler and distributors only as soon as supply recovers; as these recovery dates will vary by product, we encourage you to check our [Availability Report](#), updated daily and accessible on the [PfizerHospitalUS.com](http://PfizerHospitalUS.com) homepage, for the latest information on supply status.

For product availability questions, please reach out to your Pfizer Hospital sales representative or account executive. Alternatively, the Supply Continuity Team can be contacted between 7 a.m. and 6 p.m. (CT) at 1-844-646-4398 (select option 1 [Customer], then option 3 [Supply Continuity Team]).

Thank you,

Chris McNett  
Director, Customer Service  
Pfizer Hospital Business Unit U.S.
