**Notification of Emergency Date Extension for Potassium Acetate Injection, USP 100 mEq/50 mL (2 mEq/mL) Pharmacy Bulk Package Glass Fliptop Vial**

Pfizer has received approval from the U.S. Food and Drug Administration (FDA) of our emergency request to extend the expiration date of 9 lots of **Potassium Acetate Injection, USP 100 mEq/50 mL (2 mEq/mL) Pharmacy Bulk Package Glass Fliptop Vial** to mitigate a shortage of medically necessary product.

The lots listed in the table included at the end of this letter have been extended by 12 months past their labeled expiration date. The FDA is not requiring or recommending that the lots identified in the table be relabeled with new expiration dates. If replacement product becomes available during the extension period, customers are expected to replace and properly dispose of these affected lots as soon as possible. We anticipate that FDA's [website](#), which lists extended use dates to assist with drug shortages, will also be updated to reflect this information.

If you have any questions, please call our Customer Service Department at 1-844-646-4398.

**Emergency Extension Dating for 9 Lots of Potassium Acetate Injection, USP
