**Notification of Emergency Date Extension for Diltiazem Hydrochloride for Injection  
100 mg Single Dose ADD-Vantage® Glass Vial**

Dear Customer,

Pfizer has received approval from the U.S. Food and Drug Administration (FDA) of our emergency request to extend the use date of 15 lots of **Diltiazem Hydrochloride for Injection 100 mg Single Dose ADD-Vantage® Glass Vial**, NDC 00409-4350-03, to mitigate a shortage of this medically necessary product.

The lots listed in the table included at the end of this letter have been extended by twelve months past their labeled extended use date. The FDA is not requiring or recommending that the lots identified in the table be relabeled with new extended use dates. If replacement product becomes available during the extension period, customers are expected to replace and properly dispose of these affected lots as soon as possible. We anticipate that FDA's [website](#), which lists extended use dates to assist with drug shortages, will also be updated to reflect this information.

If you have any questions, please call our Customer Service Department at 1-844-646-4398.

Thank you,

Ashley McHenry  
Portfolio Director, Anti-Infectives & ADD-Vantage  
Hospital U.S.
