**Notification of Emergency Date Extension for  
North American Coral Snake Antivenin (Equine) 10 mL Vial**

Dear Valued Customer,

Pfizer has received approval from the U.S. Food and Drug Administration (FDA) of our emergency request to extend the use date for one lot of **North American Coral Snake Antivenin (Equine) 10 mL Vial**, NDC 00008-0423-03, to mitigate a shortage of this critical product.

Lot CL6814, listed in the table at the end of this letter, was previously granted a 12-month extension from June 30, 2024 to June 30, 2025. FDA has now approved an additional 12-month extension, extending the use date to June 30, 2026 for **North American Coral Snake Antivenin (Equine) 10 mL Vial**. Images of the product label and carton reflecting the affected lot are provided at the end of this letter for reference.

If a replacement product becomes available during the extension period, customers are expected to replace and properly dispose of this affected lot as soon as possible. We anticipate that FDA's [website](#), which lists extended use dates to assist with drug shortages, will also be updated to reflect this information.

If you have any questions, please call our Customer Service Department at 1-844-646-4398.

Thank you,

**Angelika Piatek**
