**Product NDC and Vial Presentation Change for Camptosar® (Irinotecan Hydrochloride Injection, USP) 300 mg/15 mL (20 mg/mL) Single Dose Vial**

Dear Valued Customer,

Pfizer Hospital is pleased to share that the new NDC and vial presentation change for **Camptosar® (Irinotecan Hydrochloride Injection, USP) 300 mg/15 mL (20 mg/mL) Single Dose Fliptop Vial** is now available at distributors and wholesalers (please note locational inventory may vary).

While there is a difference in NDC, label and vial presentation, as detailed in the Product Information table below, please note there is no change to unit of use price, unit of sale size or indications. We are requesting that customers begin to order the new NDC, 00009-0082-02, for any future orders. The current NDC, 00009-7529-05, is already depleted.

**340B INVENTORY REPLENISHMENT**

Pfizer recognizes that a product transitioning to a new NDC number can impact product inventory accumulations for 340B covered entities. The Product Table below outlines both the existing and new NDCs. Because the new NDC is for the same product (drug, dosage form, and package size), and has the same 340B price as the corresponding existing NDC, eligible 340B covered entities may use a 340B compliant inventory replenishment model to transfer accumulations of the old NDC toward replenishment of equal quantities of the corresponding new NDC. Please keep a copy of this letter for your records.
