**Product NDC and Vial Presentation Change for DOXOrubicin Hydrochloride Injection,
USP 200 mg/100 mL (2 mg/mL) Multiple Dose Vial**

Dear Valued Customer,

Pfizer Hospital is pleased to share that the NDC and vial presentation change for **DOXOrubicin Hydrochloride Injection, USP 200 mg/100 mL (2 mg/mL) Multiple Dose Vial** is now available at distributors and wholesalers (please note location inventory may vary).

While there is a difference in NDC, label and vial presentation, as detailed in the Product Information table below, please note there is no change to unit of use price, unit of sale size or indications. We are requesting that customers begin to order the new NDC, 00069-1542-20, for any future orders. The current NDC, 00069-3034-20, is already depleted.

340B INVENTORY REPLENISHMENT

Pfizer recognizes that a product transitioning to a new NDC number can impact product inventory accumulations for 340B covered entities. The Product Table below outlines both the existing and new NDCs. Because the new NDC is for the same product (drug, dosage form, and package size), and has the same 340B price as the corresponding existing NDC, eligible 340B covered entities may use a 340B compliant inventory replenishment model to transfer accumulations of the old NDC toward replenishment of equal quantities of the corresponding new NDC.

TRANSITION TABLE

CURRENT NDC	NEW NDC INFORMATION			
Unit of Sale NDC Depleted	Unit of Sale NDC Being Made Available	Ordering & Shipping Options	Product Description	Unit of Sale Pack Size
