Product NDC Changes

Dear Valued Customer,

Pfizer Global Hospital & Biosimilars is pleased to share that the NDC changes for **Magnesium Sulfate in Water for Injection in two presentations** and **Magnesium Sulfate in 5% Dextrose Injection, USP 1 g/100 mL (10 mg/mL) Flexible Container** are now available at wholesalers and distributors (please note locational inventory may vary).

While there are differences in NDCs, as detailed in the Product Information table below, please note there are no changes to unit of sale sizes or indications. We are requesting that customers begin to order the new NDCs for any future orders.

340B INVENTORY REPLENISHMENT

Pfizer recognizes that a product transitioning to new NDCs can impact product inventory accumulations for 340B covered entities. The Product Table below outlines both the existing and new NDCs. Because the new NDCs are for the same products (drug, dosage form, and package size) and has the same 340B prices as the corresponding existing NDCs, eligible 340B covered entities may use a 340B compliant inventory replenishment model to transfer accumulations of the old NDCs toward replenishment of equal quantities of the corresponding new NDCs.

TRANSITION TABLE

CURRENT NDC	NEW NDC INFORMATION			
Unit of Sale NDC Being Depleted	Unit of Sale NDC Being Made Available	Ordering & Shipping Options	Product Description	Unit of Sale Pack Size
00409-6729-24	00409-5239-24	Wholesaler & Distributor	Magnesium Sulfate in Water for Injection 2 g/50 mL (40 mg/mL) Flexible Container	24
00409-6729-23	00409-4121-24	Wholesaler & Distributor	Magnesium Sulfate in Water for Injection 4 g/100 mL (40 mg/mL) Flexible Container	24
