Product NDC Change

Dear Valued Customer,

Pfizer Hospital is pleased to share that the Unit of Sale NDC changes for **Piperacillin and Tazobactam for Injection, USP 2.25 g and Piperacillin and Tazobactam for Injection, USP 3.375 g Single Dose Glass Fliptop Vials** are now available at wholesalers (please note that locational inventory may vary).

While there are differences in Unit of Sale NDCs, as detailed in the Product Information table below, please note there are no changes to Unit of Use NDCs, unit of sale sizes or indications. Please keep in mind that as we transition to the new NDCs, old and new NDCs may be in the marketplace temporarily.

340B INVENTORY REPLENISHMENT

Pfizer recognizes that a product transitioning to a new NDC number can impact product inventory accumulations for 340B covered entities. The Product Table below outlines both the existing and new NDCs. Because the new NDCs are for the same product (drug, dosage form, and package size), and have the same 340B price as the corresponding existing NDCs, eligible 340B covered entities may use a 340B compliant inventory replenishment model to transfer accumulations of the old NDCs toward replenishment of equal quantities of the corresponding new NDCs.

TRANSITION TABLE
