NDC and Packaging Change for Precedex™ (dexmedetomidine hydrochloride in 0.9% sodium chloride injection) 400 mcg/100 mL Single Dose Glass Bottle

Dear Valued Customer,

Pfizer Hospital is pleased to share the new NDC for Precedex™ (dexmedetomidine hydrochloride in 0.9% sodium chloride injection) 400 mcg/100 mL Single Dose Glass Bottle is now available at wholesalers and distributors (please note locational inventory may vary).

While there is a difference in NDC and packaging, as detailed in the Transition Table below, there is no change to unit of sale size, unit of use price, label, formulation, or indication.

Please keep in mind that as we transition to the new NDC, 00409-1596-10, both NDCs may be in the marketplace temporarily. However, until it is depleted, we request that you continue using the current NDC, 00409-1660-10, when available.
