Product NDC Change

Dear Valued Customer,

Pfizer U.S. Hospital & Biosimilars is pleased to share that the NDC change for **Precedex™ (dexmedetomidine hydrochloride in 0.9% sodium chloride injection) 400 mcg/100 mL (4 mcg/mL) Single Dose Bottle** is now available at wholesalers and distributors (please note locational inventory may vary).

Please keep in mind that as we transition to the new NDC, 00409-1660-10, both labels will be in the marketplace temporarily. While there are differences in the NDC, as detailed in the Product Information table below, note there are no changes to unit of sale sizes or indications.

340B INVENTORY REPLENISHMENT

Pfizer recognizes that a product transitioning to a new NDC number can impact product inventory accumulations for 340B covered entities. The Product Table below outlines both the existing and new NDC. Because the new NDC is for the same product (drug, dosage form, and package size) and has the same 340B price as the corresponding existing NDC, eligible 340B covered entities may use a 340B compliant inventory replenishment model to transfer accumulations of the old NDC toward replenishment of equal quantities of the corresponding new NDC.

TRANSITION TABLE

CURRENT NDC	NEW NDC INFORMATION			
Unit of Sale NDC Being Depleted	Unit of Sale NDC Being Made Available	Ordering & Shipping Options	Product Description	Unit of Sale Pack Size
00409-1596-10	00409-1660-10	Wholesaler, Distributor & Direct	Precedex™ (dexmedetomidine hydrochloride in 0.9% sodium chloride injection) 400 mcg/100 mL (4 mcg/mL) Single Dose Bottle	10
