**Notification of Shelf Life Extension for
North American Coral Snake Antivenin 10 mL Vial**

Dear Customer,

Pfizer Hospital is committed to sharing timely product information so that U.S. customers can plan for patient care. The intent of this letter is to provide awareness that Pfizer Hospital has received approval¹ from the U.S. Food and Drug Administration (FDA) to extend the shelf life of two lots of Antivenin (*Micrurus Fulvius*) (Equine Origin) North American Coral Snake Antivenin 10 mL Vial, NDC 00008-0423-03, by 24 months. Note that product remains available with sufficient inventory levels.

Please review the lot numbers and extended shelf life of the presentation listed below. Prescribing Information can be accessed at PfizerHospitalUS.com.

NDC Number	Product Description	Lot Number	Labeled Expiration Date	New Expiration Date
00008-0423-03	Antivenin (<i>Micrurus Fulvius</i>) (Equine Origin) North American Coral Snake Antivenin 10 mL Vial	Y03625	11/30/2021	11/30/2023
		CL6814	06/30/2022	06/30/2024

The FDA is not requiring or recommending that the lots identified above be relabeled with new shelf life dates. Please use available inventory on a first-in, first-out basis through the new expiration dates reflecting the shelf life extension as noted above.

If you have any questions, please call our Customer Service Department at 1-844-646-4398.

Thank you,

Daniel Hrlac
Sr. Portfolio Manager – Neuro, OB/Gyn, Endo
Pfizer Hospital Business Unit U.S.

¹ Biologics License Application (BLA) Supplement 101099/5119, approved by FDA on October 6, 2020.
