January 2020

**Product Order Change Notification For
Solu-Medrol™ (methylprednisolone sodium succinate for injection, USP)
2 g Vial with Diluent**

Dear Valued Customer,

Pfizer Hospital is committed to keeping you informed on product ordering changes so that appropriate plans can be made. Due to customer feedback on diluent usage provided in the packaging, there has been a product description as well as an NDC number change for the Solu-Medrol™ presentation listed in the below table. Based on the feedback, Pfizer has made the decision to remove the diluent from the new product presentation (NDC 00009-0850-01) as shown below.

To support this transition, please continue to order the **product presentation (NDC 00009-0796-01) containing the diluent until product is depleted**. The **new product presentation with no diluent (NDC 00009-0850-01) should be available** via your local wholesalers starting 1/7/20 (locations may vary).

NDC Number Being Depleted		
Unit of Sale NDC	Description	Unit of Sale Pack Size
00009-0796-01	Solu-Medrol™ (methylprednisolone sodium succinate for injection, USP) 2 g Vial with Diluent	1
