Notification of Emergency Date Extension for Heparin Sodium in 5% Dextrose Injection 25,000 USP Units/250 mL (100 USP Units/mL) Flexible Container

Dear Customer,

Pfizer has received approval from the U.S. Food and Drug Administration (FDA) of our emergency request to extend the expiration date of 13 lots of **Heparin Sodium in 5% Dextrose Injection 25,000 USP Units/250 mL (100 USP Units/mL) Flexible Container**, NDC 00409-7793-62, to mitigate a shortage of medically necessary product.

The lots listed in the table included at the end of this letter have been extended by seven months past their labeled expiration date. The FDA is not requiring or recommending that the lots identified in the table be relabeled with new expiration dates. If replacement product becomes available during the extension period, customers are expected to replace and properly dispose of these affected lots as soon as possible. We anticipate that FDA's [website](#), which lists extended use dates to assist with drug shortages, will also be updated to reflect this information.

If you have any questions, please call our Customer Service Department at 1-844-646-4398.

Thank you,

Angelika Piatek
Portfolio Director, Premix, Specialty Solutions, & Micronutrients
Hospital U.S.

Emergency Extension Dating for 13 Lots of Heparin Sodium in 5% Dextrose Injection 25,000 USP Units/250 mL (100 USP Units/mL) Flexible Container
